

# LEXO<sup>®</sup> PEDIATRIC KIT

Gait therapy for children, adolescents, and adults with ONE device

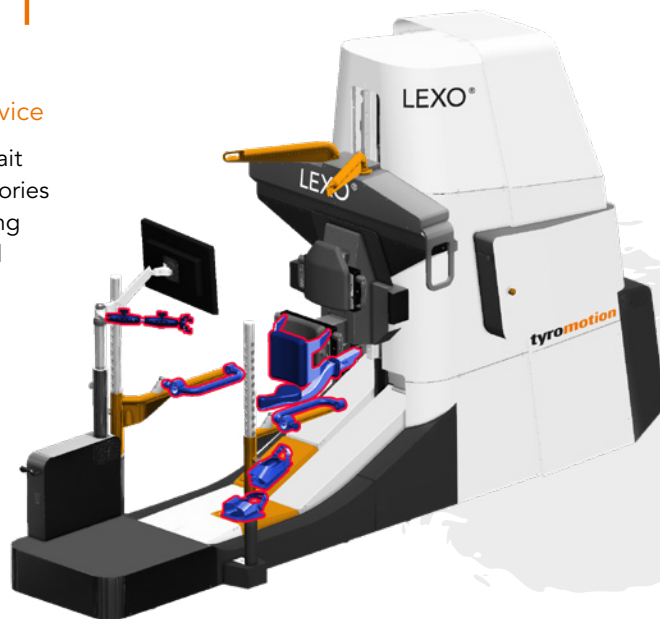

Upgrade your LEXO<sup>®</sup> with the pediatric kit to offer the full range of gait therapy for all individuals over six years of age. The additional accessories assure physiologically optimized positioning for children\* while working on aspects of gait such as independent walking, walking velocity, and walking capacity.

## Benefits

- ONE device for gait therapy for children, adolescents, and adults
- Fast and easy exchange of accessories
- Physiologically optimized positioning for height starting from 39 inch
- Individual motivation through LEXO<sup>®</sup> Walk and tablet/mobile phone mount

## Features

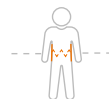

- Adaptable handrails
- Smaller footrests (shoesize 7–Y4)
- Attachable cushion for better trunk support
- Tablet / mobile phone mount
- Wall storage for saddle, cushions and footrests
- XXS, XS harnesses
- Smaller saddle

\*6 years and older

33 lbs–396 lbs

stable/unstable trunk
